## Product Information

<b>Size LxWxH :</b>	62mmx19mmx16mm
<b>Weight</b>	10gm
<b>Composition :</b>	PLA & Stainless Steel
<b>Assembled In :</b>	United Kingdom
<b>Software :</b>	None
<b>Packed Weight :</b>	+90gm for P&P
<b>Warranty :</b>	3 years
<b>Made By :</b>	Smart Boat Ltd

**Accidental Switch Prevention** – Protects critical circuit breakers from accidental on/off switching, ensuring uninterrupted operation.

**Maximum Protection** – Hinged design provides secure coverage for essential circuits while allowing easy access when needed.

**Universal Fit** – Designed to be compatible with most A & B Series circuit breakers (please check dimensions before purchase).

**Easy Installation** – Installs in minutes using existing fasteners, with no additional modifications required.

**Durable Construction** – Built from high-quality materials to withstand harsh marine and industrial environments.

**Shipping & Import Terms (INCOTERMS DAP)** – This product is sold on a DAP (Delivered at Place) basis, meaning the seller delivers to the buyer's address, while the buyer is responsible for any import duties, taxes, and customs clearance fees.
